

Menace eliminators

An effective way of wiping out moths, their eggs and their larvae, Acana's Sachet Moth Killer and Freshener can be placed amongst

clothing, simultaneously freshening your house with a light Lavender fragrance. Acana's Hanging Moth Killer & Freshener, meanwhile, is designed to be hung in a wardrobe.

Both products protect all clothing and bedding without staining.

Both products come with a unique visual end of life indicator so it's easy to know when to replace them.
